Together we can change lives!

Help support the women in Uganda who are living in the worst of poverty. By purchasing their beautiful handcrafted recycled paper beads, Nawansega banana leaf baskets, authentic Ugandan dolls with a story of a local woman of courage they are able to buy lifesaving medicine, seeds for gardens, goats, better housing, money for school malaria nets and other essentials they need. In addition to this a portion of all sells will go towards building a much needed primary school and water well in the community. Buy gifts for friends, family and yourself and provide the hope they need. We are all about "Women helping Women!"
